We herewith order as additional electrical installations subject to the Terms of Connection and Supply for Electricity on page 3:

## ■ For rent with mounting

Quantity	Item no.	Item	EUR/unit
	20534	Wiring 3 x 1.5 mm <sup>2</sup> , fastened with cable clips (other wire dimensions on request)	4.75
	20538	Wiring 5 x 4 mm <sup>2</sup> , laid freely (other wire dimensions on request)	6.84
	20544	Spot with bulb 100 W and extension arm	21.60
	20549	Halogen spot 150 W with extension arm	34.55
	20550	Halogen spot up to 1500 W	52.55
	20554	Schuko tabletop safety socket, 3-way with 1.5 m wiring	14.59
	20555	Schuko tabletop safety socket, 3-way with 5 m wiring	18.57
	20556	Schuko safety extension with 5 m wiring	12.09
	20557	Schuko safety extension with 10 m wiring	18.06
	20558	Schuko safety extension with 15 m wiring	22.15
	20559	Schuko safety extension with 20 m wiring	30.00

## ■ For rent without mounting

Quantity	Item no.	Item	EUR/unit
	20571	CEE extension up to 10 m for 16 A	57.20
	20572	CEE extension up to 10 m for 32 A	68.50

If installation work is required, this will be charged on the basis of the time required (see labor cost).

## ■ Items for sale

Quantity	Item no.	Item	EUR/unit
	20561	Schuko safety coupling without wiring	10.77
	20562	Schuko safety plug without wiring	10.56
	20563	CEE plug 5-pin 16 A without wiring	16.22
	20564	CEE plug 5-pin 32 A without wiring	23.80

## ■ Terms of Connection and Supply for Electricity

1. Form 3.1 is to be used for ordering a main electrical connection. The order and plan of the stand must be submitted to the Department Events MOC no later than **four weeks prior to the commencement of the event**. No guarantee can be given for timely completion of installations applied for after this deadline. **The MOC Veranstaltungszentrum München reserves the right to charge a price supplement of 20% on late orders.** Electrical installations are provided on a rental basis only, in the absence of any provision to the contrary. Your attention is drawn to the liability regulations set out under item 5 of the General Terms of Contract for Exhibitor Services.
2. An AC power supply with 230 V 50 Hz (cycles) is provided for small electrical appliances up to 3 kW. For power units and larger appliances, a three-phase power supply with 400 V 50 Hz (cycles) is provided.
3. **An electrical inspection and acceptance test carried out by a certified expert is obligatory for every exhibition stand and is performed by the organizer as a free service at no extra cost.** Electrical installations inside the exhibition stands will be inspected by an expert for compliance with the regulations currently effective at the MOC Veranstaltungszentrum München. Any deficiencies found are to be immediately rectified.
4. Exhibitors intending to use their own meters must provide a copy of a test certificate no older than two years and submit it together with form 3.1 or 3.2. If the exhibitor's own distributor panel with a certified (calibrated) meter is used, the rental charge for the meter included in the price for the main connection will not be refunded.
5. Electrical installation work within the exhibition stand may be carried out downstream of the MOC/exhibitor transfer point (Schuko safety socket, exhibitor's own distributor panel, CEE adapter) by the exhibitor's own qualified electricians or authorized electrical contractors. The exhibitor is fully responsible for internal stand installation. The installation work is to be carried out in accordance with the DIN/VDE regulations—notably VDE 0100 and 0108—applicable at the time. The exhibitor assumes the full liability for such damage as may occur to halls and building parts of the MOC Veranstaltungszentrum München as well as to exhibition stands and exhibits of co-exhibitors due to defective electrical installations. Faults - in the case of the company's own stand installation or installation carried out by a third-party company—will be rectified at the exhibitor's expense as per the materials used and time incurred (plus supplements for work at night, on Sundays/public holidays).
6. **In the case of serious violation of relevant regulations (including those set out under DIN VDE 0100), the power supply will be cut off. If the power is cut off, no refund will be granted for the cost of the installations that have already been set up. The cost for the main connection will be charged in all cases.**
7. **The measurement list supplied to the exhibitor or ordering party must be checked, countersigned and returned without delay. This list is used subsequently for invoicing purposes. Any complaints concerning the products or services provided must be addressed to the Department Events MOC prior to or on the first day of the exhibition at the latest, so that a proper inspection can be carried out. Complaints regarding the scope of products or services provided lodged subsequently will not be considered.**
8. The daily repair service is to be ordered by the organizer as required and only applies to products and services provided by the MOC Veranstaltungszentrum München. A supplement of 50% will be charged on the standard hourly rate for repair work on equipment not installed by the MOC Veranstaltungszentrum München.
9. Cancellations are only possible up to **ten calendar days** before the official stand set-up date. The services provided up until this point in time are to be remunerated. After this time, MOC Veranstaltungszentrum München is entitled but not obliged to provide the services ordered. The additionally provided services are to be remunerated. Any amendment thus constitutes a cancellation of the original order and placement of an additional order.
10. Complaints must be made in writing to the Department Events MOC without delay, but by the first day of the exhibition at the latest so that any defects can be rectified immediately. Complaints lodged subsequently, particularly after the relevant invoice has been issued, can no longer be verified and will therefore not be considered. No claims against MOC Veranstaltungszentrum München can be asserted in such cases.
11. The exhibitor is obliged to deactivate the entire electrical system on a daily basis after the fair closes via the master switch incorporated in the main connection distributor. The circuits for equipment requiring a continuous supply of electricity are exempted from this (separate sockets and circuits necessary—refrigerator socket). The exhibitor is fully liable for his electrical installation and the use made thereof within his exhibition area. For safety reasons the exhibitor's entire power supply will be switched off approx. one hour after the **commencement of the stand dismantling period.**
